

EIDO

*Seeing stars, it pictures the beyond.
Hearing birds sing, it creates a symphony.
Smelling flowers, it invents rich perfume.
Touching another's heart, it saves a life.*

Deprived of such experiences of the senses, the human brain can wither and die. Given a diversity of these experiences, the brain will develop well-rounded competence and a mind capable of understanding complex ideas and forming intimate relationships.

EIDO is an educational and experiential intensive seminar, designed to combine lecture, small group and corporate experience. It is designed to assist you to travel beyond the growth received in your experience of "Binding the Wounds" and other seminars you may have attended, to a deeper understanding of how your early years have orchestrated adult character and behaviors.

Through the use of 5 inventories, several aspects of your life will be uncovered and your innate (inborn) specific giftedness will be identified and explored. You will learn how wounds may have caused you to "live" in an area of the brain that is not your God-give specialty, thus draining you of vital energy and success in life. Every facet of life is impacted by this information! Finding success in intimacy, relationships, career, health and spirituality can be your reward, since you have chosen this life-changing experience!

This six-day intensive will be your opportunity to discover who God made you to be, to learn how your wounds have detoured your path to fulfillment, and to chart and begin your journey to joy.

Being more specific

Lecture time will include a deeper investigation of Attachment Disorder (rejection) and its affect on additional areas of life – especially how a focus on self, impacts intimate relationships and personal spirituality. Conclusions drawn from "Binding the Wound" (a prerequisite for EIDO) regarding personal beginnings will be expanded and explored.

Prior to the seminar you must complete the MindPrint Inventory and return it to us. This will be done by e-mail (instructions on the reverse side of this brochure). It will be scored, interpreted and given to you at a specific point during the seminar. Considerable lecture time will be devoted to a complete explanation of its theory and relevance to the total success of an individual. The reasons for adaptation to behaviors not God-given will be clarified, and their personal application explored. As you answer the questions on the inventory, it is imperative that you be completely honest, and reply using the best of your ability.

Corporate (or large group) experience will round-out theory and personal awareness with practical examples, helping participants to learn through observation of others and group interaction.

**Where knowledge merges
with understanding, creating
hope and change.**

WELCOME TO EIDO

The Experience of a Lifetime!

You have chosen to embark on a journey of self-discovery and understanding, and beyond that, the opportunity to change what has not been working for you.

You are to be congratulated, for this workshop will take you to places of awareness that you did not think was possible, and alter the course of your life to benefit you and those with whom you love and relate.

Plan to put 100% of your energy and commitment into this event, and as a result you will reap the benefits, both this week and for the years to come.

Your attendance at every session is required! If you should miss any one of them, the experience would be altered for all those in attendance, so we ask you to cooperate by complying with this requirement.

You are being prayed for by a committee of concerned Christians during every day of this experience. Consider this as a part of your Spiritual growth as well, because what you will learn and experience is designed to enhance how you relate to God as well as to others.

The experience will end on Saturday after dinner allowing time for your flight or trip home, and/or for preparation for your next work week.

There will be times for breaks with beverages and/or snacks. You will have 2 hour lunch and dinner periods.

We encourage you to listen to all that is said by participants as it will benefit you greatly.

Blessings!

Ron and Nancy
