

Drs. Ron and Nancy Rockey

Having both experienced painful but different beginnings, Ron and Nancy married in 1965, expecting wedded bliss. What they found instead was a battle zone. But because they persisted in seeking knowledge and help, the Rockeys are celebrating their 40th anniversary, and are deep into their mission.

Pain became their passion.

Ron and Nancy have created seminars and recovery programs designed to relieve emotional pain and improve life. Relief opens the passage to a relationship with family, friends and God, which may have been blocked as a result of wounds received during early childhood.

Nancy was a nurse and Ron spent years in pastoral ministry. Each has graduate degrees in Marriage and Family Therapy and Counseling.

During the past ten years they co-directed *Family Ministries for Faith For Today*. Currently they remain busy teaching and creating new, helpful materials through Life Renewal Institute, a psycho-educational organization which they founded.

About Life Renewal Institute

The mission of Life Renewal Institute is to provide scientifically relevant, psychologically sound, and Biblically based information and tools, which when applied personally, promote active resolve, alleviate emotional pain and **open the door** to successful interpersonal relationships and intimacy with God.

AVAILABLE PROGRAMS

THE JOURNEY

The Journey is a road map that is easily read and designed to get you around the detours of life and the bumps in your personal experience and relationships. Beginning the journey requires that you take a serious look at how you arrived at your present position – an examination of your days from conception onward. The understanding of these early connections will be your compass for the rest of your journey as you identify your own personal routes, obstacles, and destination. This journey will lead you down the road to personal understanding, fulfillment and relation success.

There are four segments to The Journey seminar series:

The Passenger: Discovering your personal attachment styles and how they developed from your time in your mother's womb and forward. Gain an understanding of how your beginnings impact your life today.

The Mode: Understanding rejection and being released from its grip. All of us have experienced rejection in many different forms which drives today's behavior.

The Route: Seeking to identify the various forms of abuse and their effects on our lives today. Topics include Verbal, Emotional, Physical and Sexual abuse. Understanding that these behaviors don't exist in a vacuum is the key that unlocks the door to forgiveness.

The Destination: Experiencing complete recovery and the promise for a brighter future. You can know and relate to the power available to you for healing and healthy relationships.

For a more detailed description of the four segments of The Journey series, please visit our website.

BINDING THE WOUNDS SEMINAR

An eye-opening seminar designed to acquaint participants with the evil agenda to destroy humanity by unmet childhood emotional needs, rejection or sexual, emotional or physical abuse. It explores the dynamic that exists in families which predisposes the generational deterioration of the family unit. Finally it provides the prescription for emotional healing and optimum emotional and spiritual health.

RECOVERY PROGRAMS

Life Renewal Institute encourages individuals who seek true emotional healing and healthy relationships to join a gender specific, small group. Each session is taught by Ron and Nancy Rockey via video presentation, followed by introspection and discussion using your personal notebook with the assistance of a trained facilitator.

This is a life changing experience that has benefited thousands of people and transformed relationships. Small groups are the key to unlocking the mysteries of your past and opening the door to the promise of a brighter future.

Binding the Wounds includes 22 sessions to help you recover from rejection, unmet emotional needs and abuse.

Each of the four segments of The Journey includes ten sessions. Refer to **The Journey Seminar Series** for a list of the topics.

CONNECTING

This seminar examines the powerful pre-natal period and its effect on the rest of life, the learning style and emotions of the developing mind and specific parent/child relationships. It offers charts and self-examination techniques for complete understanding and provides tools for healing a parental wound.

CREATED FOR SUCCESS

Available in both seminar (weekend) and in follow-up format (16 sessions), this exciting and intense seminar examines God's Formula for marital happiness – the "Law of Marriage". Its intense content prepares couples for marriage or sets wounded marriages on the road to healing. It's a "must-do" for couples contemplating that important step, and it's been suggested that parents of bride and groom go through the program as well!

JOURNEY TO NAI (truth) – PROGRAM FOR TEENS

Incorporating the old classic film, "The Wizard of Oz" for its media impact, teens discover that "Dorothy's" issues are quite like their own. Feelings of worthlessness, fears, anger, depression, suicide, addictions, sexuality and other topics are carefully addressed in a four-color workbook. Students learn to identify feelings and acquire the skills to share them as they work through each of the 13 lessons in small group sessions.

THE "EIDO" EXPERIENCE

This is an intensive 7-day experience with eight hours of classroom and group interaction daily. Through the use of five inventories, including the BTSA, students learn who they are, discover their inborn giftedness and how to harness its potential for personal and professional improvement. Participants come away with a new "lease on life"! Limited to graduates of the *Binding the Wounds Recovery Program* exclusively.
